

Questions for Kris Joannes at DPI from 12/10/12 District Council Meeting:

Is it true that DPI is no longer training new PDP Reviewers? If not, why not?

Is DPI involved in training university programs so new teachers are already familiar with Danielson, etc.?

To what degree are the teacher educator programs in Wisconsin teaching about Danielson and this evaluation?

Does DPI recommend an evaluator/educator ratio?

Will there be ways to combine the expectations of Educator Effectiveness with the PDP?

For example, the objectives in your PDP can/should be your SLOs.

Comment that came in with the questions:

DCNTP will need to offer training to mentors on Educator Effectiveness
