**DCNTP's outcome** for sending participants to NTC's Symposium is to learn more from national programs about how to support our strategic priorities. This year our primary goal is (1) the increased use of high leverage tools. We will continue to work on our prior goals which include (2) mentoring for equity; (3) individual district use of induction data to guide program support and improvement; (4) supporting principals in collaborating with all induction stakeholders; and (5) building a learning community of program leaders.

Please respond to the following: **(limit responses to no more than three pages total)**

1. In which of the above priorities do you feel most able to support DCNTP, and why?
2. What events/professional development/infrastructures within the DCNTP have you been a part of? Which of these would you like to learn more about?
3. How would your attendance at this event and your participation on the DCNTP team benefit you professionally—individually and within your district?
4. What is your current role/responsibilities in supporting teachers new to the profession?
5. Please provide the name and phone number of a reference within your district.

By completing this application, I agree to the requirements in the attached document and will support the team efforts of the DCNTP at NTC's Symposium:
